

BAND SUBSCRIPTION WILL BE RAISED BY COMMITTEE AT ONCE

Committee Will Canvass Business Men
For \$5,000 To Finance Boys' Band
For the Next Year—Little
Trouble Expected.

The last canvass for finances to support the Maysville Boys' Band was made in June, 1919, and at that time enough money was raised to finance the organization until the first of September with little effort. Instead of making the canvass at the end of the year in June, the committee thought best to make no canvass until they had used all of the finances they had on hand and it therefore becomes necessary to make the canvass at once.

The managing committee is now making its preparations to start its subscription campaign on Wednesday morning and they hope to be able to complete the subscription within as short a time as possible and they are therefore asking that those who have regularly contributed to the support of the band begin thinking right now how much they will be able to give this year so that there will be no delay when the time comes for the committee to call.

It has been estimated that a fund of five thousand dollars will be necessary this year to keep the main band and a large second band going throughout the year and the committee is hoping that they will be enabled to raise that sum at the very start so that they will not have to make other canvasses during the year. Practically all of this money is spent in the instruction and the upkeep of the band quarters while instruments are purchased for members who are unable to pay for them at the start and they are allowed to pay back the price of the instrument as they make money through the band. All money made by the band is prorated to the members of the organization and in this manner the children are enabled to pay for their own instruments by means of their own efforts.

Maysville has nothing worth quite as much to the city at the present time as the Boys' Band. As a city, we are proud of it and as citizens we should loyally support it in this campaign of a few days to make its next year assured of financial success.

RENTAL INCREASE ASKED OF COUNCIL BY TELEPHONE CO.

Maysville Telephone Company Ask That Rates for Service Be Increased 25 Cents Per Month—Council Must Change Franchise.

At a meeting of City Council, as a committee of the whole, held Monday evening at the Council Chamber, Mr. J. J. Voath, of Paris, District Manager of the Central Home Telephone Company, owner of a majority of the stock of the Maysville Telephone Company, presented a petition to Council asking that the telephone company be permitted to increase its rates to local subscribers at the rate of 25 cents per month on all kinds of telephones in use.

The Telephone Company's petition says:

"Gentlemen: All during the period of continued rising prices of labor and material the Maysville Telephone Company has continued to operate and furnish telephone service at the rates which were in effect during the period of pre-war prices. We have done this in the hope that the peak would soon be reached, and that the trend of prices would be downward until a level somewhere near normal would be reached. Contrary to this hope, however, the trend of prices has continued upward, the price for material now being higher than ever before and it having become necessary to recently make a large additional increase in the salaries of our operating force.

"This being true and no relief being apparent in the matter of expense of operating the telephone property, we respectfully petition your honorable body to permit the telephone company to increase its rates for service as per schedule attached, which schedule is the same as is now in effect at Paris, Frankfort and other similar sized cities in Kentucky."

It was found at last night's meeting that the telephone company now had in use 1269 telephones and that under their franchise they were permitted to increase their rates 50 cents per subscriber when they should have reached 1200 subscribers. It was taken for granted that this was the case and that the council need take no action on the proposed increase.

It develops, however, that there is a clause in the franchise which the members of Council evidently overlooked which provides that the company cannot increase its present rates for a period of five years and that if the company does increase its rates, it will be necessary for Council to waive this provision of the franchise which says:

"Provided, however, that for a period of five years after date when this franchise shall become operative, the company or person owning said franchise shall not charge a rate in excess of a rate hereinbefore permitted to be charged when between 800 and 1200 telephones are installed. After the expiration of said five years the rates hereinbefore authorized shall be applicable without any limitation whatsoever."

The Telephone Company is at present charging the rate provided for between 800 and 1200 telephones and this clause in the franchise says they cannot increase that rate for a period of five years after the franchise became effective. The franchise became effective on January 1st, 1917, and the subscribers therefore has a right to receive service at the present rates until January 1st, 1922.

District Superintendent Veatch stated this morning that it would be absolute necessity for the Maysville Telephone Company to be permitted to charge the increase of 25 cents per subscriber per month asked of council because of the enormous increase in the cost of everything used by the Telephone Company in the up-keep of its system. He proposed to increase the cost of all telephones 25 cents per month and continue the discount of 25 cents if the bill is paid before the 15th of the month. This practically means that the Telephone Company charges each subscriber his discount each month.

While at Monday's meeting of Council it appeared there was nothing to be done by Council and that all the Telephone Company would have to do was to prove to a committee of Councilmen that they had 1200 subscribers and then add the extra charge to the bills. It now develops that Council will have to take some action in waiving the city's right under the clause of the franchise heretofore quoted granting them service at the present rates for two years longer and the matter will come before Council at its regular meeting on next Monday evening.

STORM DAMAGE IN MASON COUNTY WILL BE VERY HEAVY

About Twenty Thousand Dollars Loss On Bridges Alone in Mason County—Road Loss Goes Into the Thousands.

Losses in Mason county from the rain and wind storm of Sunday afternoon will mount into the thousands of dollars according to the County Judge Purnell who has been informed of several heavy losses throughout the county. Loss of bridges alone will reach nearly \$20,000, while the losses in damage to pikes and roads is hardly reported to an extent upon which an estimate can be placed.

The bridge losses thus far reported are: Two abutments on Cabin Creek, just completed Saturday, two abutments at Mayslick, one bridge at Moransburg, one large bridge on the Fleming pike and one bridge on the Taylor Mill pike.

Steps have been taken by the County Commissioners to make repairs to the pikes now blocked because of the bridges being out as soon as possible. This morning eight bridge companies were wired to have representatives here on Thursday to submit bids on an iron bridge for the Fleming pike at a meeting of the County Commissioners. It is hoped that this bridge can be installed within a very short time.

Much inconvenience has been experienced by persons traveling these pikes not knowing that the bridges were out until they came to them and County Engineer Simons will today place signs on the pikes so as to cause as little inconvenience as possible to tourists.

TREASURERS OF TWO PARTIES TO TESTIFY TODAY

Men Who Handle Finances of Republican and Democratic Campaigns Appear Before Investigating Committees at Chicago.

Chicago, Aug. 31. — Following Republican Chairman Hays and former Democratic Chairman Homer S. Cummings, who were heard yesterday by the Senate committee, which is here investigating national campaign funds and expenses, the treasurers of the national committees, Frederick W. Upham, Republican, and Wilbur W. Marsh, Democratic, are to be the chief witnesses today.

Chairman George S. White of the Democratic national committee also is on hand to supplement the information given by former Chairman Homer S. Cummings. Democratic campaign contributions to date total only \$67,000. Mr. White said he would tell the committee. "Actually, the Democratic committee is so poor I almost hate to confess it," Mr. White said. "We have already spent virtually all the \$67,000 subscribed. I have stepped into my place so recently that I have no final campaign cost estimate to present."

Representative Fred W. Britten of Illinois also will be called, the committee announced, to explain his published charges that an "entertainment" fund of \$87,500 had been used by the British embassy at Washington in the interest of the Democratic Presidential campaign.

UNCLE TED'S BED-TIME STORIES

"Uncle Ted," said Jack as they left the dinner table, "mother says she will be able to vote for Warren G. Harding for President just like Daddy and she said that you might tell us a story about how it happens she can vote."

"Yes, Jack," replied his Uncle, "it looks as though the women of the United States would be able to vote this year unless those opposed to it in Tennessee, the last state to ratify, should succeed in winning a suit in court. These people claim that the Tennessee House of Representatives was not constitutionally organized when they voted on the suffrage question. But that is a detail. The fact remains that Tennessee was the last state to ratify, that is, it was the thirty-sixth one to vote in favor of giving the women of the country the same rights as the men. In order to give the women this right of suffrage, as it is called, the Constitution of the United States had to be amended and in order to amend the Constitution the amendment had to be passed by the Congress of the United States and ratified by thirty-six of the forty-eight states.

"In the first place, let me tell you that it was a Republican Congress that took the first essential action. In 1918, when both Houses of Congress were Democratic, the resolution to submit the equal suffrage amendment was defeated. In 1919, when both Houses of Congress were Republican, the resolution was adopted. By far the greater part of the support for the resolution came from Republicans and the greater part of the opposition came from Democrats. The Democrats are silent about that part of the proceedings and center all their claims on the fact that the last state to ratify was Democratic.

"Tennessee is located in what is known in politics as the 'Solid South.' Tennessee nearly always votes Democratic and everyone admits that it is a Democratic state. After thirty-five states had ratified the amendment and only one more state was needed, the Democrats made every effort to have the thirty-sixth state Democratic. After the ratification by Tennessee the Democratic leaders came out with statements and claims that because the final state necessary to ratify the amendment was Democratic their party should receive all the credit."

"But how about the other states?" asked Jack.

"I was just coming to that. The first state to ratify was Wisconsin. This was a Republican victory and the vote was cast on June 10 1919. Out of the thirty-six state legislatures which ratified the amendment twenty-six were Republican, and in only seven where the Democrats had entire control of both houses of legislature was the suffrage amendment ratified. In three others, one house of the legislature was controlled by Republicans and the other by Democrats. Republicans supplied twenty-six and Democrats only seven of the ratifying states.

"Up to this time nine states have refused, either in one way or another, to ratify the amendment. Out of these nine, eight are Democratic states. In fact, Tennessee and Arkansas are the only states located in the 'Solid South' to agree to ratification."

"You said that eight Democratic states refused to agree to suffrage," said Jack. "How many Republican states refused?"

"Only one Republican state legislature, that of Delaware, refused to ratify," answered Uncle Ted, "as compared with the eight Democratic states. These Democratic states are Alabama, Georgia, Mississippi, South

Carolina, Virginia, Maryland, North Carolina, and Louisiana."

"How many women will be able to vote this year?" asked Ruth.

"About 26,800,000 women will have the privilege of going to the ballot box on November 2nd, just the same as the men. The Republican party welcomes this addition of voters with all confidence. We are certainly not going to be worried by the noise which the Democrats are making in trying to take the credit for the suffrage victory. In addition to the fact that the majority of the states which ratified the suffrage amendment were Republican, you should know that those who worked hardest in the Congress of the United States for success of suffrage were Republicans. I do not say this because I am a Republican, but because it is a fact and can be proved by anyone who cares to go to the trouble of looking into the records of the United States Senate and House of Representatives.

"That is about all there is to the suffrage story. Any voter who wants to know the truth about the suffrage question will find that there is no question that the victory is due chiefly to the efforts of the Republicans of the country."

IN THE DAY'S NEWS.

Forty years old today is Queen Wilhelmina of Holland, who has the distinction of being the only woman in the world who is a reigning sovereign in her own right, a position she has held since 1890, when at the age of ten years, she ascended the throne at the death of her father, King William III. Her mother, Queen Emma, governed the country as regent until the young Queen reached her eighteenth birthday, when she was formally inaugurated as sovereign. In 1900 Wilhelmina married Prince Henry of Mecklenburg-Schwerin, and in 1909 the couple were blessed with a daughter, the little Princess Juliana, who is heir to the throne. Notwithstanding the fact that she is the richest sovereign in Europe in her own right, Queen Wilhelmina is simple in her manner of living and gives personal attention to her household affairs as well as to affairs of state.

While women have just been declared eligible to receive the Victoria Cross, it is recalled that so long ago as 1869 the officers of the Royal Munster Fusiliers presented to the wife of their commanding officer a replica of the Victoria Cross in gold. This was in recognition of her conspicuous gallantry and devotion to duty while voluntarily nursing the men of the regiment during an outbreak of cholera.

COLORED CONFERENCE
PROVES BIG SUCCESS

Many Colored Visitors In the City During Church Meeting Which Closed On Sunday.

The district conference of the Colored M. E. church of the Cincinnati-Maysville district which has been in session at Scott's M. E. church in East Fourth street for the past week, came to a close Sunday with services in both of the local colored churches. Visiting ministers filled the pulpits at both the colored Methodist and the colored Baptist churches morning, afternoon and night and great throngs of colored people attended all of the services.

During the conference week a most successful period was reviewed in the reports on the various activities of the church. Not in many years has the great work been accomplished by the colored Methodists of this section that has been accomplished this year.

One of the outstanding features of the local meeting was the inauguration of a movement to erect in Louisville a large Memorial church to commemorate the election of the first negro General Superintendent in the Methodist church and the efforts of the members of this church will be greatly bent on this achievement during the coming year.

A THOROUGH JOB.

"I want you to clean my shop window," said Mr. Blinks to Muggins, the village champion window cleaner. "Do you think you can do it while I am away for an hour or so?"

"Oh, yes, glad to do it," returned Muggins. And while Mr. Blinks was out he set to work with a will and completed the job with a vengeance.

"Muggins," said Mr. Blinks, entering the shop and glancing at the cleaner's work with approval, "you've done the job well. Why, there isn't a speck of a scratch to be seen on the whole pane. Here's your money and an extra shilling."

"I'm glad you're satisfied with it," murmured Muggins, pocketing the

money somewhat nervously.

"Of course, I am. Why, I can hardly believe there is any glass there at all, it looks so clear."

"Well, there ain't," said Muggins, moving rapidly toward the door. "Me and the ladder fell through the glass just after we started."

Photographers advise girls not to powder their faces before having their photographs taken. Powder flattens the features and robs the face of expression. A shiny nose "takes" better than a dull one, and the girl who can resist the natural temptation to give her nose a little dab, will have the satisfaction of seeing a far better photograph.

THE PROPER COURSE

Information of Priceless Value to Every Maysville Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Maysville citizen who used them and who publicly tells of the benefit derived?

Ben P. Fleming, constable of Mason Co., 217 E. Lee St., Maysville, says: "I have used Doan's Kidney Pills off and on for several years, getting them at Wood & Son's Drug Store, and they have been of great benefit. At times my kidneys have been out of order and I have suffered from a dull, constant ache through the small of my back. The kidney secretions have been irregular in passage, too. A box or so of Doan's Kidney Pills has never failed to relieve me of the complaint in a short time."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fleming had. Foster-Milburn Co., Mfrs., N. Y.

WIFE'S DENIAL IS SENSATIONAL.
Winchester, Ky., Aug. 31.—In a sensational denial Monday in a local newspaper, Mrs. Nancy E. Mullins Haggard declares she is innocent of improper relations with Ben B. Good, clubman, who was killed by her husband, Rodney Haggard, attorney, here last Friday evening. She also exonerates Good. The denial followed reports published in Louisville in which it was stated the shooting of Good was on "account of the separation of Haggard from his wife, and jealousy."

Mrs. Haggard is the daughter of James Mullin, of this city, candidate for the Democratic nomination for Sheriff.

Haggard's examining trial has been set for next Saturday.

KENTUCKY TROOPS ARE RECALLED

Federal Forces Will Maintain Order On Both Sides of Tug River In Strike District.

Frankfort, Ky., Aug. 31.—Kentucky troops on duty on the Kentucky side of the mine trouble zone in West Virginia and Kentucky will be withdrawn today by an order issued yesterday by Governor Edwin P. Morrow.

Governor Morrow yesterday communicated with Governor John J. Cornwell, advising him that if there is any outbreak on the Kentucky side which cannot be promptly and effectively handled by the civil authorities of Pike county he will ask the commanding officer of the federal forces operating in West Virginia to extend their control to the Kentucky side of Tug River in order to maintain law and order there, and that there shall be one command in control of the entire situation.

From information received yesterday the governor is of the opinion that the situation on the Kentucky side is well in hand and can be safeguarded for the present by the civil authorities of Pike county. About thirty-five members of the Kentucky National Guard are on duty on the Kentucky side.

The governor was notified Monday that nearly 500 federal troops under command of Colonel Samuel Burkhardt, Jr., and Major Roy Ashbrook, were on duty on the east Virginia side, which is the seat of the trouble.

PLACE ALL THAT'S NECESSARY TO ASSURE TOBACCO FAIR.

Efforts are being made to procure the Liberty Tobacco Warehouse and an answer will probably be obtained by tomorrow.

Don't Prod Your Liver to Action

MR. Overcomes Biliouness, Constipation, Sick Headache, Quickly. No Griping or Pain. Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—are closely allied, and the proper action of any of these organs is largely dependent upon the correct functioning of all the others. "Whipping" your liver into action with calomel or forcing your bowels with irritating laxatives or strong cathartics is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (NR Tablets), which not only brings immediate relief, but genuine and lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliouness, corrects constipation and quickly relieves sick headache. Get your system thoroughly cleansed and purified for once; stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one NR Tablet occasionally to keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well.

Get a 25c box and try it with the understanding that it may give you greater relief and benefit than any bowel or liver medicine you ever used or may use. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.
